### **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance: the prior art shows an apparatus for regulating an exciter, a voltage source, a rectifier connected to a voltage source, three-phase windings connected to the voltage source and a voltage regulator. However, the prior art fails to show, in combination with the invention, a voltage regulator show input is connected to an evaluation unit whose output is connected to the exciter winding of the generator and the evaluation unit having three input terminals and each of the input terminals connected to one of the phase windings of the generator and the evaluation unit is

used for evaluating voltages associated with the three phase windings in order to detect error functions of the rectifier or error functions of the phase windings and the voltage regulator in response to detecting the unauthorized work states reduces the exciter current flowing through the exciter winding.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
